

How to Submit Your Design

What we need from you to set up your project:

1. A description of what you need – e.g. banner, decals, poster, etc.
2. A description of how the product will be used – e.g. short term outdoor or long term indoor, etc.
3. A complete description/example of how you want the product to look – can be hand drawn/written or computer generated.
4. Ready to print artwork from you designer (see Artwork Specs & Formats for detail on the file formats we can use.)

We can use your existing artwork or help you create new artwork that will be reusable on future graphics projects.

If you have vectored artwork from other print or vinyl projects:

Deliver artwork that you have or ask whoever has your artwork to send a file to us. If having your designer send artwork to us, ask them to check the Technical Artwork submission instructions on our website for instructions on how to format the file. This is the lowest design & setup cost option for you.

If you have photos that you want to use:

Deliver your JPEG or PSD file to us. The higher the resolution of your file, the better the quality of your print. Design and setup costs will vary depending on the quality of the files you have and how you want them integrated in to your project.

If you have a rough sketch, a hardcopy photo or design, or just an idea that you want to use:

Bring your ideas and hardcopy in to our shop or email them to us. We can create layouts and designs for you. Design and setup costs will vary depending on the complexity of your project and the number of design options you want to choose from.

How to deliver your artwork to us:

1. Deliver a CD, floppy, jump drive, etc. to our shop along with a hard copy sample of the desired output.
2. Go to the Resources section of our website and click on the “Send Us Your Files” link or paste the following link in to your browser:
<https://dropbox.yousendit.com/high-impact-yousendit-dropbox>
3. Rough sketches of your ideas can also be faxed to us at 970-278-9981.
