

We can use your existing artwork or help you create new artwork that will be re-usable on future graphics projects.

If you have artwork from other print or vinyl projects:

1. Deliver artwork that you have or ask whoever has your artwork to send a file to us. If having your designer send artwork to us, ask them to check the Technical Artwork submission instructions on our website for instructions on how to format the file. This is the lowest design & setup cost option for you.

If you have photos that you want to use:

1. Deliver your JPEG or PSD file to us. The higher the resolution of your file, the better the quality of your print. Design and setup costs will vary depending on the quality of the files you have and how you want them integrated in to your project.

If you have a rough sketch, a hardcopy photo or design, or just an idea that you want to use:

1. Bring your ideas and hardcopy in to our shop. We can create layouts and designs for you. Design and setup costs will vary depending on the complexity of your project and the number of design options you want to choose from.

How to deliver your artwork to us:

1. Deliver a CD, floppy, jump drive, etc. to our shop along with a hard copy sample of the desired output.
2. Email your files (<500KB file size) to Kristi@highimpact-signs.com.
3. For files larger than 500KB - **WINDOWS USERS:** email Kristi@highimpact-signs.com and ask her to send you our FTP instructions. **FTP CLIENT USERS:** email Kristi@highimpact-signs.com and ask her to send you our FTP user & pw file.
4. Rough sketches of your ideas can also be faxed to us at 970-278-9981.
